

IVL™ LIGHTING

by MINUIT[®]
UNE

Deep perspectives
Endless possibilities
Unique immersive experiences
Free of heavy logistics

Minuit Une's IVL™ Academy

Deep perspectives

4 independent tilts producing 4 light plans (16-bit control)

Motorized by 50 000-step motors

Smooth movement at very low speed or cut change positions

Infinite tilt movements and position combinations

Easily adaptable position presets

10 IVL™ Carrés – Philipp Poisel Tour
LD: Robert Kröber & Johannes Zink

Endless possibilities

2 modes: a directive light or a wash light, for each tilt

2 shapes of cover to choose from (square or pyramid)

1, 2, 4, 8, 16, 32 or 64 beam mode from one single source

Infinite color combinations in mode 2

Attachable in any position

15 IVL™ Carrés – 15 IVL™ Pyramides
Louis Vuitton after show - LD: Clair Obscur

Immersive experiences

Calibrated output for immersion

Directive light plans

Smooth RGB textures

Wide covering area

3D rendering lighting shapes

One flightcase already makes the show

IVL™ products offer infinite lighting combinations, creating exponential experiences when combined together. Easy to program, easy to install, without heavy logistics, IVL™ is your solution to get more out of lighting.

6 IVL™ Carrés – Franz Ferdinand Tour
LD: Cormac Jackson

A simple and hands on solution

Light-weight (16kg), robust conception, ready to travel

125W consumption

25 channels in mode 1

Regular tilts and gobo-like channels

Intuitive programming on any DMX console

Compliant with every standard

Cost efficient solution

- ▶ Unforgettable emotions and incredible experiences for audiences
- ▶ Creativity and memorable designs for lighting designers
- ▶ A scalable solution for producers
